Breast Milk Fridges

Breast Milk Fridge RLBM0524

This Labcold Breast Milk refrigerator has been specifically designed to store human breast milk in optimum conditions and features minimum/maximum temperature recording to assist with record keeping. With three adjustable shelves, an interior fan for even temperature distribution, this fridge is fitted with a lock and audio/ visual alarms to warn of temperature deviation including if the door is left open. For extra security, your Human Breast Milk fridge can be fitted with a factory fitted digital lock as an optional extra.

The latest Intellicold® touch screen controller automatically records temperature and refrigerator data. This data can be extracted by using the Labcold Connect Android App.
